

ROSTERS & PASSCARDS

CHANGES FOR SPRING 2021

In an effort to limit the sharing of items or touched surfaces, NNESSL is adopting the following procedures related to player and coach passcards and rosters:

- Physical printed/laminated passcards are not required.
- Coaches must go through proper steps for approval to be added to official US Club rosters, however coaches do not need a physical laminated card.
- Only use official printed rosters for gameday check-in.
 - Players listed on the roster who are not present on that day should be crossed out.
 - Guest players need to be written on the team roster, with all associated player information from original roster (full name, age, passcard number, etc)
 - A copy of the guest player's original/primary team roster must also be presented.
 - Coaches are advised to exchange rosters by taking a photo with their smartphone/device prior to the start of the game.
